Time and attendance made simple

from only €86 per month

Save time and money by simplifying your business' time and attendance process.

Whether your business has 1 employee or 500, a time and attendance system can improve your operations in a multitude of ways. Time & Attendance Systems are the modern solution to old-fashioned clocking in/out systems. Finding the right Time & Attendance System will enable you to run shifts more efficiently and optimise your employees' work patterns. After all, time is money!

We can help you find the right Time and Attendance System to support a healthy workflow for Clocking-in, Payroll, Absenteeism, Staff Holidays, Overtime for your business.

By implementing a time management solution, you will be able to improve efficiency and productivity, helping you to reduce cost and improve the profitability of your organisation.

Key features of this easy to use system include:

- Comprehensive time and attendance data management
- Holiday planning and absence calendar
- HR reporting on absence, anomaly and pay periods
- Remote clocking-in for employees
- Access control integration for card and biometric clocking-in machines

The ST-25 time and attendance system from Securitas Technology is the ideal solution for small to medium sized business.

“Time & Attendance solution has enabled Mercer Agencies to move away from a cumbersome paper-based time recording system to a modern system with enhanced reporting facilities. The software has allowed for greater flexibility and time savings. It has given us back valuable hours that would otherwise have been spent manually collating and reporting data.”

- Denise, Financial Controller, Mercer Agencies Limited.

Our Time and Attendance Solutions

BASIC
1-50 employees

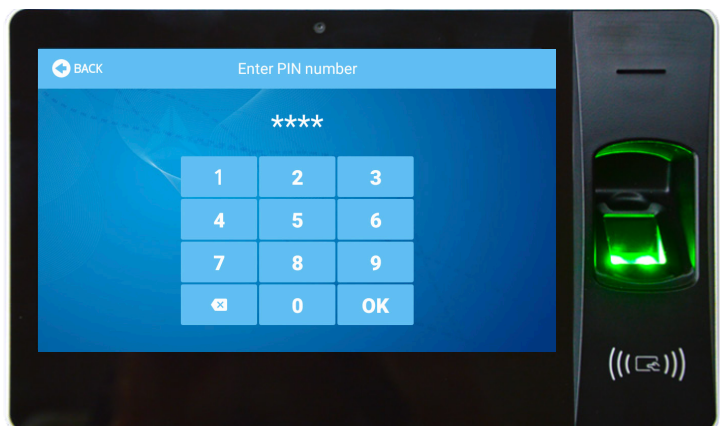

ADVANCED
50+ employees

The Advantages of a Time & Attendance System

- Save Time - Automate the calculation of employee hours, including attendance, overtime and holidays.
- Monitor Hours - Help ensure proof of compliancy within working time regulations by monitoring staff hours.
- Simplify Reporting - Our solution is equipped with a reporting tool that supports CSV and Excel export formats.
- Expand Easily - Easily add employees, sites and terminals as your organisation grows and your system needs to expand.
- Integrate Systems - Integrate your time and attendance system with your other systems, including your security and HR services.

This package includes:

- ST-25 terminal
- Installation, software licenses and training
- Proximity reader or biometric reader as standard
- Full warranty and support service

We offer a flexible payment solution for clients wishing to benefit from up to date technology without the risks of ownership and with evenly spread, manageable payment terms.

You will benefit from:

- Access to the latest time and attendance products
- No initial capital investment required
- Agreed regular payment terms with no annual increase
- Full warranty for the life of the agreement
- Full maintenance and support service
