# Comprehensive Security Solutions for Correctional Facilities

At Securitas Technology, we turn complex correctional security challenges into seamless, reliable solutions. With over 80 years of experience protecting people, property, and assets, we deliver scalable, end-to-end electronic security systems tailored to meet the unique needs of your facility.

Our solutions integrate effortlessly with your existing infrastructure, creating a comprehensive security ecosystem designed to adapt, grow, and evolve with you. Combining cutting-edge technology with deep industry expertise, we deliver best-in-class solutions to help safeguard what matters most.

Securitas Technology offers a diverse range of innovative products and cutting-edge solutions, making us the trusted partner for total facility control and security management.

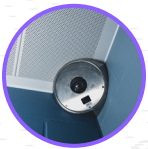

## SYNTINEL™ Platform

The SYNTINEL™ platform is the next-generation, fully customizable control system, specifically for correctional facilities, offering seamless and efficient management tailored to your needs.

## Body-Worn Cameras

Improve accountability and transparency with cutting-edge recording technology.

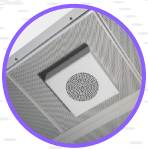

## Video Surveillance

Our advanced video surveillance technology is a powerful tool for deterring, capturing, and proactively responding to security threats.

## Drone Detection Systems

Providing alerts when a drone takes off nearby or approaches your airspace, allowing you to take action to protect your facility.

## Intercom and Comms

Our communication systems provide advanced features such as isolation, recording, and threshold alarms to improve facility operations and security.

## Perimeter Security

Minimize false alarms, increase response time, and reduce operational disruptions with our effective perimeter control solutions.

## System Insights with SecureStat™ HQ®

Take full control of your facility's security with SecureStat HQ, our industry-leading security management platform. This unified platform simplifies security management by:

- Providing a centralized view of data from multiple locations
- Allowing you to efficiently control sites, systems, events, and users
- Offering 24/7 access to installation, monitoring, and repair services

Additionally, to maximize cost-effectiveness, our solutions often incorporate retrofits and upgrades, enabling the reuse of your existing security equipment wherever possible.

# Service Excellence with Nationwide Reach and 24/7 Support

At Securitas Technology, we understand that security in correctional facilities never stops—and neither do we. Service excellence is embedded in our DNA, driven by performance and client satisfaction. With a nationwide field service network and a vast team of corrections-specific, highly trained technicians, we deliver localized support backed by a national presence.

Our team specializes in the installation, maintenance, retrofitting, and upgrading of correctional security systems, ensuring swift and reliable service both on-site and remotely. We offer 24/7/365 support—so your systems remain operational around the clock, giving you peace of mind that your facility, staff, and residents are always protected.

With SecureStat HQ, our all-in-one digital security management platform, you can seamlessly connect to award-winning installation, monitoring, and repair services at your fingertips. This innovative platform empowers you to:

- Access centralized data across multiple locations.
- Efficiently manage sites, systems, events, and users.
- Stay in control with real-time updates and round-the-clock connectivity.

From coast to coast, we work smarter to keep your systems operating at peak performance year-round, ensuring the safety of your facility, staff, and residents.

## Partnering for Long-Term Security

At Securitas Technology, we never lose sight of your priorities: keeping your facility, staff, and residents safe. As security technology advances and threats evolve, our experts maintain an open dialogue with you to optimize systems, enhance efficiency, and protect against emerging risks. By partnering with us, you gain a trusted advisor and a single source for all your security needs.

# Why Choose Securitas Technology for your Corrections Facility?

## Unrivaled Expertise

With decades of experience and partnerships with over 800 correctional facilities, Securitas Technology is a trusted leader in correctional security. From design to installation and ongoing support, we deliver tailored, end-to-end solutions to meet the unique needs of your facility.

## Specialized Engineering and Support

Our certified engineers and technicians are experts in correctional security, providing innovative designs and 24/7/365 support to ensure your systems run smoothly.

## Tailored Solutions

Our team works closely with you to create cost-effective, scalable systems designed to address your facility's specific challenges while maintaining the highest industry standards.

## Long-Term Partnership

We are committed to helping you adapt to evolving security risks and technology, ensuring your facility, staff, and residents remain safe and secure.

## What Our Clients Have to Say

*"...A collaborative partner for us; they listen to our needs and provide thorough knowledge and expertise when integrating solutions that best support our facilities."*

**Mark Bowen**

Captain of Administration,  
Hamilton County Sheriff's Office

*"We knew we wanted the most advanced security system available. We are so pleased with the final outcome and the flexibility it provides when all the systems are interconnected and working together."*

**Katherine Dixon**

Director of Capital Construction,  
Maryland Dept. of Public Safety  
and Correctional Services

*"This solution has been a godsend, it's provided peace of mind and allows us to hold essential parties accountable"*

**Tony Wilkes**

Chief of Corrections, Davidson  
County Sheriff's Office

# Why Securitas Technology

By delivering scalable, end-to-end electronic security solutions, enriched with over **90 years** of protecting people, places, and assets, we help businesses across the globe transform through the power of safe.

**We Protect. We Connect. We Optimize.**

## Best-in-Class Security Technology, Built Around You

Our expert team specializes in delivering customized electronic security solutions designed to adapt, grow, and expand with your business.

## Unmatched Support and Services to Maximize the Value of Your Investment

From initial design and installation to managing equipment life cycle, we have the support services you need to keep your security effective and efficient:

- Interactive Video Services
